[Professional Portfolio](#)

Software developer with a passion for collaboration, creative problem-solving, and continued personal and professional growth. Nine years of elementary classroom teaching have taught me to be adaptable, organized, self-sufficient, and kind. Three months of 60-hour weeks in the [University of Denver's Full-Stack Coding Bootcamp](#) have prepared me to thrive in a fast-paced, outcomes-driven, agile environment.

TECHNICAL SKILLS

React JS | Node.js | npm | Express JS | MySQL/Workbench | MongoDB/Compass | GraphQL/Apollo
HTML5 | CSS3/Bootstrap | JavaScript/jQuery | REST | Handlebars

PROJECTS

[BUBBLE ARCADE](#) | Software Developer | [GitHub](#) | 2022

- Delivered ReactJS application with self-contained, reusable components.
- Developed and designed style and theme of the application for a consistent UX.
- Retrieved data from GraphQL API using an Apollo client.
- Coordinated a full-stack team to deploy the project to Heroku in five days.

[KISS THE COOK](#) | Scrum Master & Lead Software Developer | [GitHub](#) | 2022

- Led daily team stand-ups and developer check-ins.
- Conceptualized and developed app from wire frame and relational modeling to a visually-appealing UI built on a RESTful API built using Node.js and Express
- Learned and implemented express-session for user authentication.
- Contributed to enhanced user interaction using JavaScript.
